Angela,

Thank you for your enormous effort over the past few months to lead us through Rick's transition and into the "FY16 and beyond" world, keeping an eye on countless balls and conversations. Thank you also for your support on many of my efforts, including most recently working with me during my individual development pre-planning process, and the discussions on the Swinomish subaward.

Having dipped my toes this summer in implementation strategies, SITTT/SIT, tribal management conference, and (reading about) FMFIA, I agree with you and Gina both that it's pretty impressive how much this team does, in a high profile environment – and underscores what a challenge it must be to manage this program, and how many thanks go to you for having carried that role for the past few months. Thank you!

Lisa

Puget Sounders,

Today being my last day as Acting Manager, I wanted to express my profound gratitude to each and every one of you for your support, encouragement, and hard work over these past several months. As I look back upon this summer, it is remarkable how much we have accomplished! Job well done. It's been a whirlwind. I hope that you have felt supported in the important work that you do.

I would also like to thank both Dan and Christine for providing me with this opportunity. And add a special thanks to Dan for spending the time with me to work through some potentially sticky issues. I have learned a great deal in a short amount of time.

So, on Monday - I embrace the renewed focus on my Team Lead role and look forward to successfully meeting the challenges that await us together!

Thank you,

Angela
